

Part-time CPE unit

John Muir Health, Center for CPE is accepting applications for a part-time CPE unit

In CPE, students learn the skills of chaplaincy and develop new awareness of themselves as persons in ministry through engagement with those they serve, peers, members of the healthcare team, and educators.

This is a paid internship that will include clinic and educational time. The program is approximately 16-20 hours per week. The unit will begin late October, 2023 and goes through Spring, 2024. The clinical time will include overnight on call approximately once per week

"The CPE program at John Muir provided me with a great learning opportunity to bring my personal spiritual life and my graduate studies work at Naropa into a community hospital setting."
Ari Paramesh Gonzalez
JMH Center for CPE Alumni

"CPE at John Muir was a very enriching experience in every area of my life that prepared me to fit in comfortably in any environment that I am placed."

Rachel Kasamani,
JMH Center for CPE Alumni
